Tali's new TOP CLAY[®] hybrid clay opened Courts in full use immediately !

Tali Tennis Center's new outdoor modern TOP CLAY[®] hybrid clay courts, opened on Saturday, June 8th and immediately attracted a large number of players. The sunny opening weekend filled the courts from morning to evening – the start of the outdoor season could not have been more exciting!

Tali Tennis Center's CEO Pekka Mäkelä has received a lot of positive feedback about both the new courts and the renovated sun terrace. HVS' promising competitive player Linus Lagerbohm, who just returned from the French Open boys' series, also had time to test the courts:

"The hybrid clay is slightly different from the traditional clay. On these new courts in Tali, the bounce is a little lower and the game feels slower compared to the clay I have mostly played on...."

TOP CLAY[®] hybrid clay offer a high-quality and consistent playing experience throughout the outdoor season. They require little maintenance and are highly durable in Finland's changing weather conditions.

You are welcome to test out Tali's renovated outdoor courts – the new outdoor area also includes a free-use hitting wall and a children's mini court.

HVS-Tennis is Finland's most successful and largest tennis club in terms of membership. HVS players have so far won more Finnish championships than all others combined. The majority of Finnish national team and Davis Cup players at both junior and senior levels are HVS graduates. HVS-Tennis was nominated for the 2017 Sports Club of the Year by the Sports Gala.

The club has long traditions. It offers the best playing conditions in the country. It has professional coaches and instructors. HVS's wealth and resource are its active members, for whom the organized club organizes events. Whether you are young or old, beginner or professional, male or female - HVS-Tennis is your club.
